

# Juice Box Radio

**Materials needed:**  
Used juice box  
Construction paper  
Straw  
Glue  
Markers  
Colours

## Instructions

1. Wrap the construction paper around the juice box, then glue it.
2. Poke the straw in the juice box to make the antenna.
3. Cut everything out, then glue them on the juice box to make the radio buttons.
4. Write the information you may find on a real radio, such as numbers next to the volume buttons.
