Solar Energy House

Instructions

1- Colour the house with your favourite colours then colour the solar panels blue.

2. Cut out the house, roof and solar panels.

3. Cut out the door leaving one side to allow the door to open and close.

4. Fold along the lines and fold to make a cuboid shape.

5. Use the tabs to glue the box together.

6. Stick the solar panels to the roof.

7. Fold and add the roof to the house.

8. Well done, you now have a solar energy powered house!
