

# Coral Reefs

A large blue semi-circle divided by a vertical dashed line down the center. On each side of the dashed line, there are five horizontal lines for writing, creating a total of ten lines across the width of the semi-circle.

A second large blue semi-circle, identical to the one above, divided by a vertical dashed line down the center. It also features five horizontal lines on each side of the dashed line for writing.

1. Write four interesting facts about coral reefs.
2. Glue the semi circles onto construction paper, then cut along the dotted lines.
3. Follow the diagram to finish your coral reef craft.
