

Milky Way Pinwheel

Instructions

- 1- Cut out the polygon shape then cut along the white lines (don't cut until the end of the polygon)
- 2- Make a hole in the middle of the polygon, and a hole at the left corner of each triangle
- 3- Turn the polygon upside down then pass a thread from the middle hole
- 4- Now fold each triangle and pass the thread through each triangle's hole
- 5- Make a knot then wrap the thread around a stick
- 6- Blow some air and watch the milky way spin!
