

Roman Chariot

Materials needed:

1. Scissors
2. Glue
3. Thread or whool

1. Cut everything out, then fold along the dashed lines.
2. Glue both squares to each other to close the chariot.
2. Glue the wheels on both sides of the chariot.
3. Pierce the whole ellipses on the horse, then pass a thread through it.
4. Make the horse stand in front of the chariot, then pierce 2 holes in the white circles.
4. Pass the thread through the circles and make a knot.
5. Write some facts about Roman routine on small pieces of paper.
6. Fold the papers, put them inside the chariot for the horses to carry them.
