

The Universe in My Room

Instructions

1. Cut out the planets, comets and sun and fol along the middle lines.
 2. Stick together using the diagram below to make a 3D shape.
 3. Print 2 copies of page 2 and glue back to back.
 4. Punch a hole in each planet and add a string of thread or wool.
 5. Glue the threads to your printed galaxy.
- Now you have your very own universe!
