

# Sponge Sailboats

Final Look

Materials needed

Scissors  
Sponges  
Skewers  
Glue

## Instructions

- Make a square out of the sponge, then ask an adult to help you cut a small piece of the skewer.
- Choose one of the sails or make your own on the empty one.
- Glue the skewer on the sponge, then poke it through the sail and adjust it to be slightly bent.
- Put your sailboat in water and watch it sail!
